Report of the Surgeon to Queen's

Hospital. HOWLETE, 1st Sept., 1876.

To rut Turstum or the Queen's Hospital : recurrence—I make the house to submit the song report for the quarter ending the Elst of and, ESS.

The transfer of patients at present in the Queen's Hospital is 80; wir: 70 Hawaitana, 28 mains and 42 tumolier, and 10 tumolieres (7 paying). The manufact of after solons disrug like period was The country of the property of

Benders the above, M new hannes have been en-bered in the dispersary books. The greatest num-ber of bedone patients was 30; the smallest 23; dualy strongs declar, the quarter SI; dispensary 7; prescriptions 3,080. The humber of patients treated in the hampital during the quarter was as follows: Joseph 211; August, 108; at the dispen-sary 62. Respectfully submitted, Bennert McKrants,

NOTES OF THE WEEK

SCHR. BONANZA. - The Alta of the 29th ult. reports this vessel as lying at Mission Rock discharged. On the fourth page will be found the elo-quent sermon of the Rev. W. Frear, presched on

the occasion of the late Thanksgiving.

COOLEST YET .- The thermometer fell on Monday night to 57', which is the lowest point it has reached in town this winter.

Bang D. C. MURRAY.-This packet arrived over vember 19th, and probably left about the 26th or 28th and will be due during the coming week.

Bark R. C. Wylie is advertised to leave San rancisco for Bramen and Hamburg via Honolulu. As her cargo was nearly all engaged, she will probabir be down in a few days.

Mont Rats,-On Sunday evening last there was a soaking rain from the West, which lasted however, only about half an hour. The next morning the wind got round the to North and blew clear and coul for several hours.

to We are desired to call attention to the fact that the house-lots on the Pisio, which were advertised to be sold on Saturday next, will not be offered until further notice

OART COLLEGE.-The boliday examinations of this institution begins to-day, and will continue for three days. The vacation will continue three weeks, the new term commencing on the 8th of January. RICE.-As an illustration of what the country can produce, we have been shown samples of clean

rice from Lumstai, Kauel, paddy which for size of

grain and pearly whiteness of cleaning is fully Coming Festivities .- By notice in to-day's same it will be observed that the young folks propose to get up a subscription ball for New Year's eve, at the Hotel. The originators of the affair intend that it shall be a most brilliast and enjoyable

no From Fiji we learn that the loan of 40,0001 obtained from Great Britain had been exhausted, but hopes were entertained of getting another loan of 60,800f, during the present year. Commercial prospects were improving and the sugar crop looking

Expectan.-By the steamer from San Francisco due to-morrow morning, quite a number of old residents are expected back, among whom we note the sames of Mr. E. P. Adams, Dr. J. M. Whitney and family, Mrs. A. Pratt, Joseph P. Cooke and wife, Mrs. Atherton, Mrs. Gray, Captain Hobron and family, Dr. Kittridge and wife, and T. W.

ATTEMPT TO SMUGGLE OPIUM .- The vigilant Custom House guard, Mr. Markham, while searching the barkentine Discovery yesterday for contraband articles entered the cabin and immediately noticed the well-known and peculiar smell of oplum. On investigation about a thousand dollars worth of the precious drug was discovered concealed in the spring mattrass. Nothing like a keen sense of this case, was worth to its owner not less than \$500.

CATERPULAZE - We are informed that in Wainmanage was date from his Francisco to De lun and Waisanse the late rains have brought out innumerable bordes of perims which have eaten the roung grass off so short that the pasturage is in a worse condition than during the drought. Before the large increase of the mynal, the district in which Honolulu is situated was every year subjected to the same plague, whereas now, not a catand the E ope's res mill is tarning out a sepillar is over seen in this region. We believe this and the same of th The same of this enterprise will be other forms of insect. life whenever it becomes unmerous, and will on that account prove a valuable aid to agriculture here.

COMMERCIAL ENTERPRISE IN THE PACIFIC.-The ship Goolan twelve branded tons, sailed from Lousion on the 19th of September last with a general cargo of merchandise amounting to \$100,000, bound for Levuka and Samou. She is the pioneer ship of a regular line composed of her class to open direct trade with the new colony of Fijl. The Association is composed of some of the oldest and most influential merchants in London, with unquestioned responsibility. Their agent arrived here a few days ago, and has purchased the Kosta Sacramento and loaded her for Apia with a general cargo. She sailed Saturday. The Menchikoff, which sails today, has been loaded by the same parties and will be employed to run amongst the Fifi Islands to collect trade for the homeward-bound vessel to England .- Daily Alta.

The Philadelphia Centennial Exhibition sed on the 10th of November, and the total receipts amounted to \$4,308,735. The number of admissions exceeds six millions. The greatest number of paid-up admissions in one day occurred on September 28th, when, in addition to the free addons-over 15,000-257,285 paid the entry fee. This exceeds by about one-third the largest attendance on any one day at any of the European expoaltions in years past, notwithstanding that in Paris and Loudon, the Sabbath, held sacred in Philadelphia, was the busiest of busy days. Paris, with its 183,925 visitors on Sunday, October 27th, 1867, comes next to Philadelphia. The greatest number of visitors in one day at the other exhitions were as Tollows:

A NEW INVENTION. - Mr. Foster, of Portland, Oregon, has given us samples of preserved fruits, brought by him from that place, which we have tested and find to be delicious. They are prepared by a new process invented by a farmer in that State, by a new process invented by a farmer in that State, by a new process invented by a farmer in that State, in which the ripe fruit is reduced to a pulp, and the state of the s hollow revolving drum of tio, which is heated by steam. As fast as the juice falls it is reduced in consistency by the heat, and forms a tough leathery coating over the entire circumference of the dram. When this, by the continued process of accretion, has become sufficiently thick, it is taken off, form ing a large oblong sheet all ready for the market. It will keep in this state for any length of time and in any climate. When wanted for use it is only necessary to cut off a sufficient quantity and dissolve it in cold water and sweeten to the taste, and there is a delicious jaur ready for use. All kinds of Irait, and even milk, are prepared by this process. Messes Friel & Laine intend to keep these preparations on hand bereafter.

## LATE FOREIGN NEWS!

THE RESULT OF THE

Presidential Election Still Undecided. By the arrival of the barkentine Discovery yesterday morning, twentyr-two days from San Francisco, we are in receipt of the follow-

ing items of news: CHICAGO, November 19th .- The Inter-Ocean Washington dispatch says: Officers of the House of Representatives, now in the city, have been figuring on the Congressional returns, and report that, occording to the returns received up to-day, 142 Republicans and 144 Democrate bave been chosen. Three Districts in New Hampshire are yet to elect and two Republicans and one Democrat are expected. Four Districts are now in doubt, one in Louisiana one Mircouri, and two in South Carolina. Estimating these doubtful Districts are divided equally between the two parties, the House will stand: Republicans. 146: Democrats, 147. Among the Democrats is Alex. H. Stephens, who is not expected to be able to take his seat. This will leave the House a tie in his

NEW YORK .- The Tribune's Washington specia says: Members of the Cabinet continue to be assured that flayer has a majority, by dispatches from trustworthy persons at Tallahassoc; but the hopes of most Republicans here have been steadily deing for the past four or five days, under the influonce of the long continued uncertainty. The length of time allowed the Florida Board of Canvassers to examine the returns was until recently believed to b thirty five days. It was thought there was no ex-press provision in the case of the vote for the Presi dential Electors, and that they would come under the provisions of the new law respecting the Stat but an old law has been discovered which lly limits the time to 26 days.

New York, Nov. 26.—The World's Washington special says: The arrival of the four companies of regular artillery in this city this evening was so un-expected and so at variance with the statements made by the President, tieneral Sherman, and Sec-retary Cameron yesterday, in denial of the report that Washington is to be garrisoned, as to create a positive reusati n. The force comprises 234 men. Captain Loder reported his arrivat to Gen. Sherman at 5 o'clock this evening. The gentlemen named above seemed anxious to have a contradiction sent far and wide of the story that a large ferce of troops would be ordered here, the former even remarking that he saw no reason why troops should be brought here now. I have it also on undoubted authority that twelve batteries of heavy artillers, altegether, have been ordered to report to Washington at once. Three batteries are on their way from Fort Leaven-worth, and one is expected here before morning, and others from Fortress Monroe and Fort McHenry All the journals express some solicitude at the con-centration of troops at Washington. The Herald says, editorially: The news we publish to-day relative to the concentration of troops at Washington, will doubtless excite some comment, but it need not occasion any alarm. The President and his advicers claim that it is a wise precaution to have a respectable body of troops on hand until after the 4th of March, Inauguration Day. They do not fear any outbreak or disturbance, but simply wish to provide Ladles' Russia Dressing Cases.

for all possible emergencies. NEW ORLEANS, November 19th.-The total vote of Louisians, made up from duplicate poll-lists, received from forty-seven parishes and ten parishes estimated by the regisfration this year, and the vote of 1874, is as follows: For Governor—Nichols, 84,302; Packard, 76,112. Total, 180,224. Total total for Treasurer, in 1870, was 147,795. Increase this year over 1874, 12,519. Nichols' majority over Packard, 8090. Six of the Tilden Electors get a majority over the highest vote for a Republican of 9239. The other two Tilden Electors have a majority of 7036. The discrepancy in the majorities is caused by the omission of the names of five Hayes' Electors from the Republican ticket in several

NEW YORK, November 20th .- The Times' New Orleans despatch says: Prominent Northern Demo-crats who came to Louisiana are going home dis-beartened and disgusted. They see that Governor Haves has undoubtedly carried the State, and many fixes has undoubtedly carried the State, and many of them are unwilling to give any countendace to any attempt which may be unade to defraud the Republicans out of the fruits of their horest victory. In the meantime, politicians who remain here are beginning to talk a great deal about a compromise, and this morning a number of them tried to make some kind of terms with Packard. Both he and forceror Kellager positively refused to laten to any Governor Kellogg postively refused to listen to any plan of adjustment other than that which can be based upon a fair count of the votes. The proposi-tion to which I refer was not definitely made; still It was very plainly intimated to Packard that he count be Governor without trouble, if he would agree to have Tilden counted in by the Returning Board. The ex-Marshal replied that he had no influence with the Board; that it was composed of honorable men, who would do their duty honestly and lairly; and that, even if he could control them, he would decline to do so. I am informed upon the best authority that plans of compromise similar to the above were made last night to at least one best authority that plans of compromise similar to the above were made last night to at least one member of the Beturning Board. He indignantly refused to listen to them, and, in the name of his colleagues, protested against any further attempts to influence the action of the Board. It is but justice to state that Nichols, the Democratic candi-date for Governor, is not a party to any of these schemes. These were all concocted by friends of Tildee, who are willing to sacrifice the claims of all the State officers in order to secure the triumph

As for Louisiana, there is no doubt. There need be no anxiety. Upon a fair count, the State will give Hayes a majority of at least 6006, and a fair count will certainly be had. Of fity-seven parishes in the State, forty have been officially heard from. They State, forty have been officially heard from. They show a Republican majority of from 7000 to 8000. There will be contests in regard to at least twelve, and perhaps twenty parishes; but they will not come up until districts in which there is no contest have been disposed of. This is in accordance with the State Election Laws. The count of the uncontested parishes will finish in about three days, and disputed ones will then be considered. It is thought they can be gone through with in seven days, and that by the 15th of December the official announcement of the wote for President and Vice-President.

New York, November 19th.—Special gives the following result of the count of the Electoral vote of South Carolloa:

Republicans Electors at Large—C. C. Bowen, 99,786; John Winsmith, 99,870. District Electors—T. B. Johnson, 91,852; Timothy Hurley, 91,136; W. B. Nash, 91,804; Wilson Cook, 91,432; Wm. F. Weers, 91,839. Myers, 91,830

Myers, 91,839.

Democratic Electors at Large-T. G. Barker, 90,986; Samuel McGowan, 90,737. District Electors-J. W. Harrington, 90,895; J. L. Iogranam, 90,788; William Wallace, 90,935; J. B. Irwin, 90,906; Robert Aldrich, 90,860.

## HUNT'S REMEDY.

Tax Collector's Notice! THIS BEMEDY WAS ORIGINALLY PRE-THIS REMEDY WAS ORIGINALLY PRESCRIBED by an eminent physician for a case of
Dropsy in Mrs. Hunt's family. John Hunt, ared about th,
of a stout and pletheric habit, was select with a sudden
attack of general dropsy, which in a few days threatened
his life. The ordinary remedles had all proved inefficacious, and under their use the patient was fast failing into
an alarming state. The dropsy was general and extensive,
legs swelled to an enormous size and the water increasing
rapidity. He was sutirely mable to lie down in bed, and
was forced to remain hight and day in a sitting posture.
This state of things continued until by the advice of the
physician alimided to, the present remety was tried. In
consequence of its preculiar nature it was necessary to prepare it with great care, and in order to insure this it was
intrusted to the family of Mr. Hunt to procure and compound it.

pare it with great care, and in order to insure this it was a strusted to it.s family of Mr. Hunt to procure and compound it.

The remedy was administered, and almost from the mament of its reception a decided improvement became manifest. The kidneys were immediately affected and roused to action; the swelling of the legs rapidly subsided, the lungs were freed and resumed their healthy and stressible action; the flesh of limbs resumed its elasticity, a caking "remaining, and he was rapidly convalencing when unfortunately, prompted by this rapid improvement, he gave up the remedy for a short time.

If was unfortunate, for the curative process was arrested, the kidneys flagged in their action, again becoming torpid, the water increased with frightful rapidity and he soon again found himself in a very alarming state. The remedy was again had recourse to, and by its persevering use the disease was a second time subdued. But this was a most aggravated and severe case, and it book all the virtues of the Remedy, combined with care and time, to oradicate the effects of the disease. But through a persevering use of it a permanent cure was effected, and he resumed his active out-of-door occupation, within a short time, a well man. tesumen as a set out of the first of the first of the first out of the fir

plaints.

It has been well and favorably known and extensively use sinced that time by all classes, both with and without the advice of physicians, and has been the means of saving from a lingering and frightful disease, and unimely death, many of our most estimable and well-known citizens. HUNT'S REMEDY. The only known Remedy for Bright's Disease, and has cured every case of Dropsy in which it has been given: Irritation of the Nick of the Hadder Inflamation of the Kidneys Uccention of the Kidneys and Bladder Disbetes, in Stricture and for Kofeebled and Delicate Constitutions of both serse, Etneded with the following symptoms: Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nervess, Wakefulness Painful and Dragging Sensation in the Back or Loins Phonting of the Body, Eruptions on the Face, Pallid Countenance, Lassitude of the System etc.

## HUNT'S REMEDY. Has been before the public for more than twenty year nd has been the mesus of saving from lingering at rightful disease and untimely death hundreds of our mo

ble and well known citizens. This Medicine was Never Known to Fail Price \$1.50 per Bottle. DILLINGHAM & CO.
